# Cost Saving Tahini Mayonnaise

IDEA	SOLUTION
Develop a product in line with	A mayonnaise with a tahini flavour
current trends for Middle Eastern	that pleases consumers while
flavours.	enabling cost savings.

**N-CREAMER®** 2230 emulsifying starch can enable recipe cost savings by replacing egg or other emulsifiers. With tolerance across all processing conditions, it can provide excellent texture stability over shelf life in mayonnaise, dressings and cooking creams. It can also be used to enhance functional performance in analogue or processed meats.

**ULTRA-TEX**® **2131** instant starch is a cost-effective replacement for oil which can help manufacturers save costs while creating premium, short and glossy textures. Suitable for use in salad dressings and sauces, it also brings cold viscosity to processed meats, which improves handling and processing.

## Tahini Mayonnaise

# Oil Phase

Ingredients		% as is

# **Preparation**

- 1. Blend one third of the oil with the ULTRA-TEX® 2131.
- 2. Mix all of the water phase ingredients with the N-CREAMER® 2230 in the kitchen aid at a moderate speed for 30 seconds, then gradually add the oil-starch mix within 60 seconds.
- 3. Turn shear down to low for two minutes.
- 4. Mix remaining oil with tahini and add to the kitchen aid at low speed within 90 seconds.
- 5. Emulsify for 30 seconds at high speed.
- 6. Cold fill into containers and keep refrigerated.
